Profile

Computer Science graduate with hands-on experience in designing and developing full-stack web applications using React.js, Node.js, Express.js, MongoDB, PostgreSQL, and TypeScript. Built multiple scalable academic and personal projects, served as an Undergraduate Teaching Assistant. Passionate about solving real-world problems and eager to contribute as a Software Engineering Intern or Junior Software Engineer.

Education

East West University 	2022 – 2026
Bachelor of Computer Science and Engineering	Dhaka, Bangladesh
CGPA : 3.73	
Milestone College 	2018 – 2020
Higher Secondary Certificate	Dhaka, Bangladesh
GPA : 4.58	

Skills Summary

Language JavaScript (ES6+), TypeScript , Java , C, C++	Frontend React.js, HTML5, CSS3, Bootstrap, Responsive Design
Backend Node.js, Express.js	Tools Git, GitHub, Postman, Visual Studio Code
Database PostgreSQL, MySQL, MongoDB , SQLite	Security and Performance JWT Authentication, NGINX load balancing , HTTPS/SSL

Professional Experience

Undergraduate Teaching Assistant (UTA)	02/2025 – 01/2026
East West University (Department of CSE)	
- Assisted faculty during programming laboratory sessions. - Guided students in debugging and problem solving. - Evaluated assignments and supported lab activities.	

Projects

Event Flow – An Automated Event Recommendation System 
Tech: React.js, Node.js, Express.js, Supabase, Prisma, Passport.js, Cloudinary. Developed a full-stack university event management and recommendation system with secure authentication, QR-based attendance, and Cloudinary integration for media management
SurePay - Mobile Banking System 
Tech: Node.js, Express.js, PostgreSQL, NGINX Built a secure mobile banking backend with Node.js, Express.js, and PostgreSQL, implementing SSL encryption and NGINX reverse proxy for load balancing and performance
Learnroom - Online Classroom
Tech: HTML5, CSS, JavaScript, Node.js, MongoDB, Passport.js. Developed a role-based online classroom platform with secure authentication and RESTful APIs for managing users, courses, and assignments.
Mess Management System (Android App)
Tech: Java, Android Studio, Firebase Designed and developed a mobile application for managing mess members, daily meals, and monthly expense calculations. Implemented real-time data storage and authentication using Firebase to ensure secure and efficient data handling.

Honors and Awards

- Awarded a Dean's Scholarship for maintaining a CGPA of 3.75+ across three consecutive semesters. Achieved 3.89 CGPA during Spring 2024 -Fall 2024
